Listen to our Customers!

"I have been RVing for 15 years and we finally sold our old Class A. My wife talked me into getting anew 5th wheel and the very first thing I did was install a Hott Rod. I had a Hott Rod in my motorhome for 10 years with no problems and I truly love it. Thanks." - Jackson Miller, Texas.

"The parts manager talked me into purchasing a Hott Rod after a I kept complaining about the cost of propane. I got so sick of hearing that hot water heater kick on and off when we were sitting outside camping knowing it was chewing through propane (money) every time I heard it. Great product and easy to install, thanks for the savings!" - Barret Bradshaw, North Carolina.

DIAMOND GROUP – Diamond Group is an aftermarket supplier of electrical components and OEM replacement parts to the RV Industry. Our proprietary product line “The HOTT ROD” is the number one selling water heater conversion kit in the industry and is the only conversion kit that offers UL/CSA approval and a lifetime warranty. In addition to the Hott Rod, Diamond has expanded its product offering by establishing key partnerships with numerous manufacturing plants to provide the RV aftermarket with OEM replacement products that meet or exceed OEM quality standards. Our product lines include 110 electrical components with speed wire products, décor and standard switches, receptacles, plates, covers and 30 Amp plugs. 12 volt switch and wiring harnesses, audio/video wiring and accessories and our newest line of LED products and intelligent fuses manufactured by Kaper II. Diamond Group can provide the hard to find specialty items as well as the every day common use products at a competitive price and unparalleled service.

As a family owned company we understand that relationships are only as strong as your word. We consider a handshake a commitment to our customers, suppliers and employees and always strive to be the best company regardless of the business climate or the competition. Thank you for allowing us to serve you and your customer with the continuing demands of the RV industry.
